County School For Blind Helps Children Meet Problems In Life

With the opening of the County School for Blind ... Campbell this fall, blind children of Santa Clara County re... first chance to attend school in a normal manner and to... adjust themselves to a world of seeing people. The seven chi... are presently enrolled, attend regular classes in the Campbell ... School, are assigned the same work as their more fortunate classmates and, for the most part, are graded on the same basis.

The school, under the direction of Mrs. Florence Gilmore, was started in an effort to give blind children a general education comparable to that which they might receive in any public school. In the process of learning their multiplication tables and spelling words, the children have a chance to meet problems of the outside world and to adjust themselves to the conditions which they must meet.

COUNTY SCHOOL

This seemingly impossible task is accomplished with only one hour a day of special instruction. The rest of the students' time is spent in attending regular classes and associating with other students of the school. Occasionally, when a blind student is faced with a problem which he is unable to solve without special aid, he may be excused from the classroom and seek help from Mrs. Gilmore.

During their special period of instruction each day, students are taught to use the braile writer, and typewriter and given special instruction in such subjects as social studies which require special raised maps. Once a child learns to use the braile writer, an instrument similar to a typewriter except for a series of flat bars instead of keys, and the typewriter, they are sent to regular classes. Students take notes on the teachers instructions with the braile writer and when the class is given a certain reading assignment, the teacher will direct one of the students to read the assignment to the blind child who again takes notes on it with the braile writer. It is not uncommon to see children vie for the chance to help their blind classmates. Most of the tests are taken with the aid of a typewriter where the student answers the teacher's questions by typing them on a sheet of paper. In spelling classes, the blind child is of course faced with the double problem of errors. Often the student may know the spelling of a certain word but a mistake in typing will cause the word to be marked as an error.

Biggest problem in teaching is the social studies class. At present, this class must be taught by specialized methods because of lack of braile textbooks, raised maps, and the handicap which is found in the children's inability to visualize an abstract idea without some concrete and tangible object to illustrate it. To understand the landing of the pilgrims and the first thanksgiving dinner, children must often be given a model of a ship and are often taken to a ranch where they may feel and hear the turkeys.

Biggest problem of teaching the students is the lack of braile textbooks and equipment such as more typewriters and braile writers. Under the present arrangement, the state supplies funds to the school on the basis of average daily attendance and since the Campbell school has not yet established such a figure, funds are sufficient to pay for instruction and only a meager amount of equipment and for standard textbooks. It is this lack of braile textbooks which has proved the most serious handicap. Students often aquaint themselves with their studies by copying regular textbooks in braile while the teacher reads the context to them. Other students help the instructor in constructing special raised maps for studying subjects like geography and history. One class in which a blind child is in regular attendance has decided to make a raised map of the lands which they cover in their school studies. At the end of the year, when the course is finished, the map will be set aside for use of the blind children next year.

Most of the equipment, such as braile writers, typewriters and a recording machine have been donated to the class by interested organizations throughout the county.

Perhaps the most valuable asset which the school provides is the chance for the

Members of the ... committee are preparing con... tainers to place in stores and ... places of business throughout the area in an effort to stimulate contributions.

A spokesman for the drive stated this week that the effort is likely to fall far short of its goal unless greater enthusiasm is shown toward making contributions. "All of the money collected," he said, "goes directly to local organizations with only one percent being spent on secretarial help and office supplies." He emphasized the fact that all the workers and unit heads connected with the drive are unpaid volunteers and that they are donating their time in the interest of the community.

BPWC Asks Names Of Needy For Yuletide Baskets

Campbell BPWC, conforming with a policy adopted several years ago, will again render help to the needy families of Campbell. This year the policy of helping but one family may be altered to include members of several local families, a spokesman of the local club indicated this week.

In the past, a family in the community was selected to receive clothing, groceries and toys necessary to bring the warmth and cheer of the Yuletide to the needy family. This year the gifts of children's clothing, groceries, etc., may be spread over a number of local families.

In announcing the continuation of this charitable polity, the BPWC has made an appeal to local residents to contact Lucille Barnes, if they know of anyone in this community needing assistance. Mrs. Barnes may be contacted by telephoning Campbell 3697.

American Trust To Give Bonuses

Jack Payne, president of the Campbell branch of the American Trust Company, stated this week that he had received communication from James K. Lochead, president of the company, that the board of directors would follow their usual procedure of awarding one-half week's pay to all officers and employees of the bank as a Christmas bonus.

...their ... during the ... funny in retrospect. ... quarters, the whims by which duty assignments are being made, and the frantic "popping to" in the presence of stuffed shirts with brass on their shoulders—all are there; but without bitterness, and leavened with the spirit of "let's get the job done and get out of this mess," so typical of civilian soldiers in all wars.

Fire Marshall's Aide Talks To Rotary Meeting

Robert Carel, representative of the State Fire Marshall's office spoke to members of the Campbel Rotary Club at their regular meeting last Monday noon. Carel showed a film featuring the activties of the Los Angeles Fire Department, showing some of the problems faced and the techniques used in combatting fires of various types.

Carel praised the work of the Campbell Volunteer Fire Department saying that they were doing an excellent job. "I would recommend, however," he said, "the addition of at least three or more paid firemen. This number could be increased as the need is made evident. The establishment of a first class fire department," he continued, "is well worth the price, not only because of the lower rates of fire insurance which are made available, but because of the saving in loss of property and belongings."

A joint meeting with the Los Gatos Rotary Club will be held next Monday in Campbell. Members of the high school a cappella choir will furnish entertainment.

Mrs. W. R. Morgan, wife of the divisional Lt. Governor, will act as chairman for the event.

Merchants Decide Against Christmas Lights This Year

The merchants of Campbell will forego Christmas lights and decorations this year, Jack Payne, president of the chamber of commerce announced this week. Payne stated that a report by a committee asigned to investigate the situation showed that stringing of lights would entail the raising of special cables to attach to the new light poles. Such poles must be attached in accordance with specifications of the telephone company and the Pacific Gas and Electric Company and would be too great an expense for the merchants to undertake at this time. "In addition," he said, "raising of the special cables would take more time than we have left before the start of the Christmas season."

Payne stated that merchants had decided to forego Christmas lights similar to those which have been erected in previous years in favor of concentrating on a superior type for next year.

He also stated that no mention had been made of Christmas decorations to take the place of the lights.

Approximately 70 students participated.

This is the last of a series scheduled for intermediate grades. Some conferences for seventh and eighth grade classes will be scheduled later, according to Principal Dorothy Royce. The group conferences are followed by individual meetings with parent and teacher.

Child Health Topic Of Meet

In the absence of Mrs. George Petrea, Mrs. Renee Montrezza, vice-president, presided at the November meeting of the Cambrian Home and School Club last week.

The meeting will be a pie social and a spokesman for the group asked all members to bring at least two pies to the meeting.

SUPERVISORS SET DECEMBER 3 AS DATE OF INCORPORATION HEARING

The Santa Clara County Board of Supervisors have set December 3 at 2:45 p.m. as the time for the first hearing on a special election for incorporation of the city of Campbell. This latest move on the incorporation scene followed certification of names on petitions calling for such election by the county assessor's office last week. Supervisors will hear any protests on inclusion of property within the incorporated at that time, but no requests for addition of property will be heard. Supervisors may hold as many hearings as they deem necessary, providing they do not exceed a 30 day period from date of first hearing.

Following hearings, the supervisors set time of election providing they deem interest sufficient to call for such election. During the period between notice of date of election and actual election, persons desiring to file for city offices must then make their intentions known. Names of candidates for city offices will appear on the ballot at the same time as the incorporation issue.

A majority of voters must give their approval to the measure before it becomes a law.

PARENTS ATTEND CLASSROOMS IN PTA MEETING

"Back To School Night" was the featured topic of the Campbell High School Parent-Teachers Association meeting held November 14 at the school. Parents attended classes in the school, each going to a ten-minute period in their children's respective classes. At an assembly held in the auditorium, president Mrs. John Cantoni welcomed parents to the meeting.

Following the salute to the Flag, led by Cadet Raymond Shamrock, Superintendent Laurence Hill welcomed members and spoke briefly on the evening classes of Dr. Clarence Angel and told of the Folk Dancing classes now being held.

Entertainment consisted of a tumbling performance by members of the gym classes and exhibitions of folk dancing. Activities of the classes were recounted by two students, Jackie Davis and Bobbie Pincer.

Mrs. Leonard Merritt announced the Footlighters' play which is being held to raise funds for the purchase of a station wagon to transport members of the blind school to and from their classes.

Next meeting of the PTA will be held on Decembre 19 at 7:30 p.m. in the high school auditorium. Topic of the evening will be "Sharing Campbell High School's Christmas Gift to the Community."

Teachers Discuss Curriculum

Second grade teachers of Campbell Union School District met on Tuesday at district administration office to discuss curriculum problems for the grade.

The meeting was one of a series of grade level meetings scheduled to discuss teaching problems with a view to improving methods, and increasing teaching efficiency.

Use of the new State spellers, and use of Readers were the main items taken up. The 14 teachers and their principals also outlined subjects to be taken up at future grade meetings. Ann Meridier, special teacher for reading and testing in the Campbell school, had charge of the meeting.

MERCHANTS OK STAMP PLAN

The Campbell Merchants' committee approved by-laws for the proposed Campbell trading stamp plan at a meeting held in the new chamber of commerce quarters last Tuesday night. Harold Estensen, chairman of the committee, stated that participating merchants hope to have the plan in effect by December 15, but that a need for addiional funds may slow the plan down. Members of the trading stamp group plan to issue certificates to merchants who wish to participate in the plan in order to gain needed finances.

A partial board of directors was named to take office for the first year of operation of the plan. Board members named were Harold Estensen, T. A. Solari, Robert Seligson, Dobie Jeffers, L. E. Means, and Frank Accardi. One more member is yet to be named.

The plan, if put into effect, would provide trading stamps to patrons of participating merchants' stores, at the rate of 10 stamps for every dollar purchase. Stamps could in turn be redeemed at participating merchants stores for merchandise.

INSTALLATION IS FIRST IN ORDER FOR MEETING

An installation of the Guardian Council, an initiation, and an election of officers will be featured at the Saturday meeting of Job's Daughters, Bethel 174 of Campbell. Meeting will be held at 7:30 p. m.

School Children Join In Drive For Blind Children Transportation

School children of San Tomas School initiated the spirit of Thanksgiving at a mass outdoor assembly last Friday when they were asked to contribute nickels and dimes toward the purchase of a station wagon to provide transportation for children of the Santa Clara County School for Blind Children at Campbell. More than 500 students attended the program where they were told of problems which blind children face.

Contributions to the drive for funds are askd to be made out to "Transportation Fund for Blind Children," and may be mailed to William C. Henley, district superintendent of schools, Campbell School District, 111 North Third Street, Campbell.

The San Tomas drive, under the direction of San Tomas PTA president Mrs. James Barnett, is part of a drive sponsored by PTA groups in the sixth district. Mrs. Barnett stated that while the state provides funds for upkeep and salary of drivers, initial purchase of transportation for the blind children must be made through private subscription.

In connection with the fund raising campaign, the Footlighters, Campbell drama group, are cooperating with PTA units of the district in the benefit production of a three-act comedy, "Over 21," in an effort to raise additional funds for the purchase of transportation. Play will be held in the high school auditorium on November 31 and December 1. Ticket sales for the production are being handled by the El Paradiso unit of the sixth district PTA.

Other committees appointed included a membership committee; a membership card committee and a safety committee. The safety committee was directed to investigate methods of reducing traffic hazards in the area.

How to make good telephone service even better....

You won't miss important calls when you answer promptly. When you have only two cards left to play in an exciting grand slam hand—or in any situation where you'd like to say "Wait a minute!"—it's always a temptation not to answer the telephone immediately. The person calling, though, doesn't know what you're doing, and may hang up, thinking you are not at home. That way, you may miss important calls. So, next time your phone rings, won't you try to answer as quickly as you can?

faster long distance service

can be yours if you always give your call to the operator by number ...rather than by name and address. That way, you see, you won't have to wait while she finds out the number from "Information" in the distant town you are calling.

Gas and electricity are cheap in California!

Typical of tree-shaded Chico is the lovely campus of its State College.

Take CHICO for example:
Typical residential gas and electric bill
In Chico $9.78
In all U.S. cities of similar size* .. $15.84
* Average for the 29 U.S. cities outside California between 12,000 and 12,300 population. Based on a typical use of 100 kilowatt hours and 100 therms of gas per month.

P. G. and E. home rates are far below U.S. average!

The cost of living has nearly doubled since 1940, but P. G. and E. domestic rates are actually lower than 11 years ago! Nothing else you buy costs so little—does so much. Let P. G. and E.'s bargain gas and electricity do more of your work, bring you more of life's comforts.

Blind School

(Continued from page 1)

children to associate with society and develop a normal personality. This is one of the motives for sending children to regular classes with children who have complete sight. Many of the students come to school with a poor social outlook, are introverted, have poor table manners and personal health habits. Some of them resent children who are able to see and have little regard for other members of the blind class. They often consider themselves helpless and demand to be waited on all times. In this respect, the children are made to fend for themselves. Bad habits are corrected but every effort is made to teach the child to be self sufficient.

The children are urged to participate in every activity which is feasible. All the children attend regular physical education classes. While most of the time in physical education classes is spent in games, Mrs. Gilmore is looking forward to the time when some of her children can participate in regular sports such as baseball, soccer and basketball. One particular student has made up for her handicap by showing great aptitude as an organizer of games and contests.

Acceptance of the blnid children by other students has been remarkable. One student has become class hostess and another ha taken on the duties of giving a summary of the day's news before her class. Students interest in their blind classmaes starts through a normal curiosity but as they come to know them better, they accept them as friends and include them in their regular activities.

Certain apprehension on the part of teachers of regular classes who had a blind student assigned to them was overcome as soon as the teacher realized the necessity of providing some tangible object with which to illustrate their instruction.

Mrs. Gilmore, whose husband is at present working on his doctor's degree at Stanford, became interested in working with the blind when, afer taking courses in social work and physcology, she mentioned to one of her professors that she would like to take up some totally different work. The professor made note of the work and Mrs. Gilmore was approached by a blind person who offered her a position as instructor in an institution which she attended. She took special courses along with her work as instructor and later took additional classes in San Francisco.
